

MEDNET GREECE S.A.

JUNIOR SOFTWARE DEVELOPER

Expert and reliable managed care services to the benefit of all stakeholders in healthcare – from Patients to Healthcare Providers and Health Insurance Companies – that’s what MedNet Greece delivers.

At the center of our business model is the Insured Member: by cooperating with Health Insurers and selecting, monitoring and supporting clinics and medical doctors, MedNet Greece ensures that Patients receive excellent service and the best care possible.

Based on in-depth knowledge of up-to-date tools and technologies and a clearly solution-oriented approach, we work to achieve better healthcare outcomes, cost containment and outstanding customer satisfaction. At the same time, our managed care services contribute to securing the future viability of healthcare schemes.

With more than 25 years of experience in the market as well as the knowledge, resources, backing and stability of a globally leading Reinsurer (Munich Re), MedNet is ideally positioned to support Insurance Companies in mastering tomorrow’s healthcare challenges.

We are currently looking for a **Junior Software Developer**

The role

Will join the digital transformation unit for developing ASP.NET / C# .NET applications by:

Responsibilities

- Working with the Head of the Digitalization Unit and the project manager to design and write code that brings the better together story.
- Ensuring the best possible performance, quality and responsiveness of applications
- Participating in development life cycle activities such as design, coding, testing and production release, delivering high-quality code in an agile team environment.
- Improving integration efficiency and data modelling with third-party vendors by listening and learning how to delight our users.

Education – Knowledge

- Bachelor's Degree in Information Technology / Telecommunications and / or Science (Mathematics/Physics)
- Knowledge of Visual Studio, C#, ASP.NET framework
- Knowledge of HTML, CSS, Bootstrap
- Knowledge of Javascript frameworks, e.g. jQuery or other
- Knowledge of MS SQL Server or/and Oracle Database
- Knowledge of MS Entity Framework
- Knowledge of MVC architecture and the corresponding ASP.NET design pattern
- Web services (SOAP, REST)

Skills – Competencies

- Technical and analytical skills and problem-solving skills
- Experience in corresponding positions of 1 + years

Salary & Benefits

The company offers a competitive remuneration package, private health insurance and continuous training and development within stimulating and growing international working environment.
